

Quality Management System policy

The Management takes personal responsibility for the company's Quality Management regarding the design, production, assembly, distribution, commercialization and after-sales services of galley, laundry and pantry equipment for ships. Looking for the goal of providing services that fully satisfy the needs of internal and external clients with the utmost efficiency, has laid down the following Quality Policy upon which the Quality Management System is based and which is reviewed regularly by the Management Review System:

To achieve, through the commitment of all our employees and suppliers, the development of projects, the manufacture and the commercialization of accommodation areas that meet the established quality objectives.

Consequently, we hereby declare that our most important quality criteria are:

- ✓ Achieving the full and continuous satisfaction of all our clients.
- ✓ Meeting their expectations and requirements and complying with legal and regulatory requirements.
- ✓ Continually improving, taking advantage of the human and technical resources of the company to ensure the optimum management, competitiveness, internal communications and efficiency of the quality system of COCINAS BURAGLIA SL and its processes.
- ✓ Identifying risks and opportunities that are required to get the goals planned, increasing the desirable results and prevent or reduce non desirable effects and achieving continuous improvement

The management.
